

PHILIPS

Frits Philips Lounge

Tech Manual

English

Introduction

Behind the bar hangs a panel (tablet) against the wall which you can use to control the LED screen, lighting, and sound. To the left of it is a tray containing a microphone, post-its, pens, and a Clickshare dongle. In this manual, we briefly explain the most relevant technical functions.

Control Panel

On the left, you'll see the menu of the control panel. The most relevant functions are numbered as follows:

1 HDMI: This activates the HDMI function so you can connect your laptop to the HDMI cable. The HDMI cable is located to the left of the large LED screen.

2 Clickshare: This activates the Clickshare function. A dongle is located in the tray behind the bar which you can connect to your laptop. Subsequently, further instructions will be displayed on the LED screen.

3 TV: This activates the television programming on the LED screen.

4 Commercials: This activates the Philips commercial loop on the LED screen.

5 Teams: This activates the Teams meeting on the LED screen. You must always add the room in the appointment: _R_EHV_Philips_Stadium_Frits_Philips_Lounge. To the left of the large LED screen hangs a panel which you must use to confirm the (Teams) appointment.

6 Microphone: This activates the microphone, located in the tray behind the bar.
